

RESIZE TILES AND SHORTCUTS

You can change the size of all the items on the Start Menu. The choices are small, medium, wide, and large.

To change the size of a tile or shortcut on the Start Screen, follow these steps:

1. Click Start to open the Start Menu.
2. Right-click the item that you want to resize.
3. In the list that appears, click Resize.
4. In the list of available sizes, click the size you want for the item. The selected item is now resized. The maximum size that you can set for a tile or shortcut varies from app to app. For example, only a few apps have tiles that can be set as Large. Shortcuts to desktop apps can be set only to small and medium.
