Speccy Scans Your Machine and Gives a Complete Rundown of Everything

Maybe you've forgotten what kind of RAM you bought, or want a quick glance at your CPU's temperature. **Speccy** scans your machine and gives you a complete rundown of everything, from model numbers to temperatures, fan speeds, S.M.A.R.T. status, and just about anything else you need to know about your computer. http://www.piriform.com/speccy

When you access the app, the opening screen will look similar to this:
